

# INTRODUCING OUR LATEST COURSE

## SCHOOL EYE SAFETY

This course, geared for students and staff, provides instruction in the following areas:

- Proper and Effective Eye Protection
- Anatomy Of The Eye
- Types of Eye Injuries
- Common Causes of Eye Injuries
- First Aid For Eye Injuries
- Proper Protection In These Specialty Areas:
  - Woodworking
  - Welding
  - Automotive
  - Science Lab
  - Machining

This is a video-based, Internet and network deliverable, interactive course showcasing students and instructors in a school environment. A subscription to our School Eye Safety course comes with access to our Ask-The-Expert web site to address all your safety related questions.

Like all our courses, School Eye Safety also comes with a FREE Learning Management System (LMS), which allows you to manage and track the progress of your students, and provides accountability for your staff.
