

# Minnesota Technology Challenge 2009-2010

## Advanced Architecture Division

### Problem:

Your assignment is to design a college athletic facility. Unlike other arenas, this arena is solely a game facility, meaning the stands are permanent. This arena is located on campus. The campus has an urban setting and feel. This university also has a long history so the buildings have a very aged look. If possible we want the new arena to fit in with this look. The school contains upwards of 30,000 students.

Site plan

Elevations (4)

Floor Plan

Interior and Exterior Pictures

### Specification:

Arena must be an appropriate size for college.

#### **Must contain:**

Ticket office

Concession stand

4 locker rooms

Bathrooms

Coaches' offices
